SUMMARY	For a dragon simulator (I started re-reading Eragon and also The Dragonriders of Pern), the goal would be to create an app where users could simulate finding and bonding with a dragon, and possibly going on quests.
DESIRED OUTCOME	When presented to others for feedback, coworker Rick said that if I obtained a dragon, I'd need to burn down a certain business so employees could get time off with pay. Coworker Brooke said she wanted to be a dragon, but agreed on the burning down of the business. Desired outcome would be an enjoyable application that may include tasks to complete goals, possibly like job searching (based on feedback).
ACTION TO COMPLETION	
BENEFITS OF PROJECT	
PROJECTED SCHEDULE	Decide on GUI for interacting with Dragon 2/7/2024 Define Dragon class - 2/9/2024 Create actions and decide on ways to decide the updating of the dragon's state 2/19/2024 Define/Create game mechanics (if there will be challenges) 2/26/2024 Test and Debug (possibly improve graphics) 3/04/2024 Complete application 3/10/2024
PROJECTED BUDGET	$0
PROJECTED TEAM AND RESOURCE REQUIREMENTS
